

## For Facilities: A Single Source For Compliant, Paperless Credentialing

- Gathers all necessary documents, ensuring they are current and complete
- Documents acknowledgements of your policies and training requirements
- Notifies you of changes to regulatory requirements or individual status
- Stores and manages required credentials based upon role
- Manages and reports from a single dashboard
- Flags outstanding items for review
- Automatically notifies stakeholders when it's time to renew expirables
- Ability to restrict access for specific users or groups
- Always have the latest yearly evaluation on hand

## For Practitioners: "One & Done" Portable Credential

- Portable, paperless credential unlocks access to participating facilities
- Allows you to manage all of your credentials from a single dashboard
- Real-time communication with your facility's HR or MSO departments
- Mobile App makes check-in, check-out fast and easy

The SEC<sup>3</sup>URE platform from IntelliCentrics creates a trusted, verified, and global community of users, continuously verifying the attributes of every participant. This includes documents, licensure, credentials, and other requirements. The SEC<sup>3</sup>URE platform is built on trust, deployed in the cloud, and can be accessed and managed via mobile devices, personal computers, or via any internet connected platform.

## WOULDN'T IT BE EASIER IF COMPLIANCE WAS A GROUP EFFORT?

With SEC<sup>3</sup>URE **Passport**, it can be.

Our medical credentialing community runs itself—managing every practitioner's credentials *for you*. Oh, and did we mention? It all happens in accordance with your hospital's unique policy requirements.

No more worrying about compliance audits. No more chasing your staffing agency or contracted personnel for missing or incomplete credential information. No more outstanding expirables or missed deadlines.

Best of all? No more duplicative paperwork.

Future-proof your credentialing process with SEC<sup>3</sup>URE **Passport**.

## A CLINICAL CONTRACTOR'S JOB IS PORTABLE. WITH INTELLICENTRICS, SO ARE THEIR CREDENTIALS.

Our portable, universal credentialing process automatically collects and stores every practitioner's credentials—including training, certifications, licensure, insurance, and more—and notifies them when it's time to renew.
