

IntelliCentrics Corporate Administrator

All of your representatives' credential and compliance needs can be managed within one SEC³URE Corporate Administrator (CA) account. Sign up for CA at no cost, and gain the tools you need to ensure your representatives are compliant at all times.

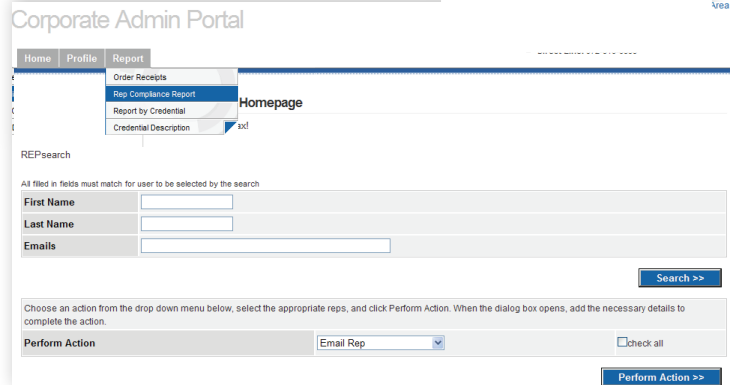

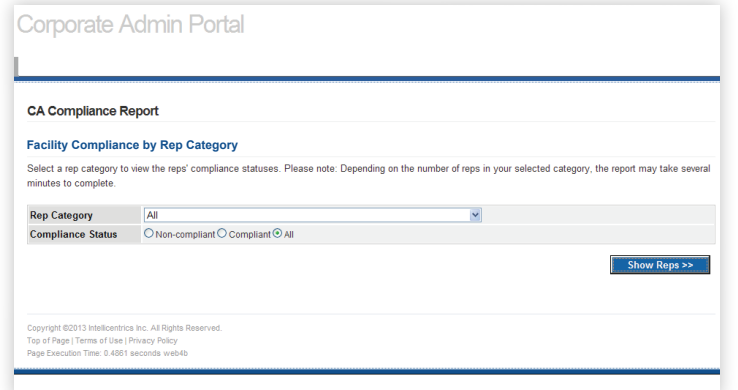

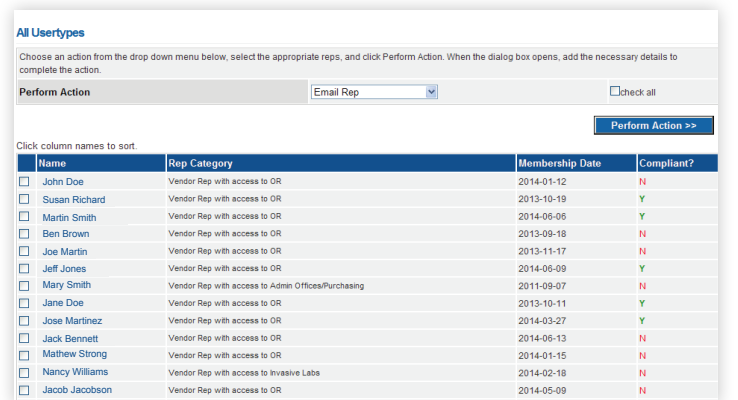

Corporate Administrator Features

- Identify non-compliant representatives
- Pay for multiple representatives at one time
- Manage and upload documents on behalf of representatives
- Access reports to manage the compliance of representatives
- Communicate with specific representatives using email integration
- Review policies requested by facilities before representatives accept them

Corporate Administrator Benefits

- Increases corporate productivity by streamlining the compliance process for all your representatives
- Ensures representatives never lose revenue opportunities by getting denied entry into a facility
- Simplifies finance by eliminating individual membership payments with a central payment option
- Boosts your company's reputation by ensuring better compliance with the facilities' required credentials and policies
- Saves your salespeople time by allowing an administrator to manage their accounts, relieving them of credentialing tasks
- Reduces corporate risk by keeping credentialing coordinators informed of the latest regulations in order to ensure your staff is compliant with all requirements
- Identify representatives fraudulently using your company name by seeing an immediate listing of each rep as they are registered in your corporate account
