## Company Profile

IntelliCentrics is driven by a single purpose - to transform how healthcare is accessed, making quality healthcare available to every man, woman, and child worldwide. The name derives from "Intelligent Concentric Circles," representing the unique value our secure community delivers to the various constituents in our healthcare ecosystem. For more than ten years, at more than 10,000 unique locations of care across six countries, the IntelliCentrics technology platform has been servicing and supporting a more efficient, compliant healthcare experience - all on a single instance of software.

To ensure a safe and SEC³URE experience, healthcare leaders must be able to identify all visitors to a facility - and understand if they are qualified to be there. IntelliCentrics provides services, resources, and tools that deliver this insight and control. The result? A more efficient, compliant, and profitable location of care.

There is a 50-year plan for the 5 Rings. Today, we're focused on healthcare. Tomorrow, you'll find us at home ... and in many other industries. But regardless of where you find us, IntelliCentrics promises to give our customers one less thing to worry about, by removing distraction and worry from the daily routine.

## Service

SEC³URE is designed to address highly regulated healthcare compliance issues for every role. A safe and SEC³URE environment results in higher quality outcomes for your patients, improved financial performance, and an enhanced brand reputation. The most comprehensive and only service of its kind, IntelliCentrics' CVO is fully Certified by NCQA for 11 out of 11 verification services. SEC³URE defines, measures, monitors, trains, and benchmarks people, premises, and protocols on a local, national, and international level. The complete process provides formal accreditation of competencies - defined for every specific area of practice - at a level that yields confidence every individual is meeting regulatory compliance and you, your team, staff, vendors, and visitors are safe.

## Executive Team
