

We ALL play a role in creating a safe and secure healthcare community. That's why it is so important to fully implement **SEC³URE Passport**. If you notice a healthcare professional onsite without a badge:

- 1 Inquire if she or he has lost their SEC³URE badge.
- 2 Explain that all healthcare professionals must wear a badge when onsite.
- 3 Direct the individual to check-in via their **SEC³URE Mobile App** or the nearest kiosk

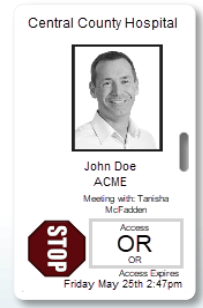

The key to facility security is EVERYONE doing their part to enforce credential and policy requirements.

**SEC³URE KIOSK
PRINT LABEL**

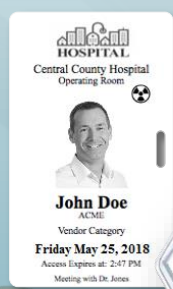

**PRINT LABEL
with STOP**

STOP sign is revealed after 12 hours.

RADIATION INDICATOR

If you spot the radiation symbol on the badge, check if the healthcare professional is also wearing a Radiation Monitoring Dosimeter.

SEASONAL FLU INDICATOR

During flu season (*October – March*), SEC³URE badges will display the work "MASK" for anyone who has NOT received the current flu vaccine.
